

Annie Bieker Employee of the Month

The Utah County Recorder's Office would like to nominate one of our finest for "Employee of the Month", Annie Bieker.

Annie hails from California, which explains her sunny disposition. Annie is well liked by all who cross her path. Her cheery disposition, generosity and emphatic laugh make her a wonderful co-worker.

Annie was hired in April 2007 as a Data Technician. Later she became interested in and took the Cadastral Mapping course, giving it her all. She was hired as a Mapper for a short time before necessity called her back into her role as Lead Data Entry/Quality Control Analysis.

Annie can thrive in any job given her, due to her efficiency, organization, patience and dedication. Currently her job entails that she trains co-workers in Data Entry. She is thorough and has the ability to communicate clearly as well as listen intently to what is being said. She is well spoken and has an incredible knack for making you feel important.

Annie is also famous for bringing the office yummy treats...just because! She gives her all in everything she does!

As far as trials go, she and her family have had more than their share! She takes each day as it comes and addresses the good and the bad with a positive attitude. She loves her family and enjoys traveling with her husband. She cares for her two children, parents, dogs and cat, and enjoys having extended family get together in her home.

Annie knows her stuff and is ALWAYS willing to answer questions. She provides feedback in a kind way, is a hard worker, very caring and is always cheerful and upbeat! We, the Recorder's Office, are blessed by twelve years of her friendship and service. We are grateful for the ray of sunshine she is in our office.
